

Evangelism

September 29 Children's Lesson

Evangelists in Action

Objective: The children will learn and understand the meaning of evangelism and will use what they have learned to help others.

Materials: Bible, paper, pencils, crayons, cards, and envelopes.

Lesson: The kids have already been exposed to different people of the bible and how they evangelized people to God. They have also learned about what it takes to be an evangelist and the meaning. So now I want you to come up with an easy way for the kids to evangelize others but either sending cards to someone they know to brighten their day and letting them know that God loves them no matter what. How can you and your group bring others to God and have the kids help participate in that.

Activity: Have the kids make cards to send to others that need encouragement or need to be reminded that God loves them. A small act like this could help bring them closer to God and it means more when a child does it. You can ask the church office for names and addresses of people in the nursing home, widows, singles, home bound members, etc.
